

Kristina Ousley, MBA

Baltimore, MD | (410)908-1986 | kristinacousley@gmail.com

A creative technologist with 7+ years of expertise across product and program management. Proven track record of shipping 0 to 1 accessible, user-centric web products across news, entertainment, and government. Blends strategy with actionable insights to improve product usability, increase revenue, and streamline workflows.

EXPERIENCE

Product Management Fellow, 19th News (full-time) *September 2025 - present*

- Led the product management of WCAG-compliant web pages, across technology, editorial, and audience teams, supporting a digital ecosystem serving 80,000+ news subscribers
- Executed QA for 50+ digital components (banners, in-line elements, newsletter CTAs, PHP migration updates), which reduced friction points and improved reader retention
- Shipped 20+ product features, including Apple News templates updates, author pages, email validation, navigation, security, and accessibility improvements
- Prioritized a cross-functional product backlog and contributed to quarterly planning that aligned engineering capacity with editorial and audience-growth priorities
- Develop SOPs to inform decisions on creating and updating digital products to improve accessibility and maintain transparency and trust between stakeholders

UX Program Manager, Healthcare Service Corporation (full-time) *August 2022 - February 2025*

- Increased customer satisfaction by 30% by leading a team of 10+ designers, researchers, and technologists to deliver multi-platform, enterprise-level redesign of client-facing products
- Reduced time spent on completing claims transactions by 35% by leveraging usability testing insights that identified redundant multi-app workflows and guided consolidation into one app
- Met a strategic goal by increasing the use of career resources by 20% and membership conversions by 50%
- Owned the product requirements documentation and weekly reporting process, aligning teams and executive management to projects that aligned with strategic initiatives

Product Engineer, University of Baltimore (part-time) *January 2021 - December 2022*

- Led a team of 5 technologists in developing extended reality (XR) apps and games for clients in geospatial intelligence, education, and e-commerce
- Reduced customer calls by 50% and users' mental stress by executing design studies to improve information architecture of interfaces for users with cognitive processing challenges
- Drove end-to-end development of a Department of Labor dashboard by integrating 10+ federal and state APIs to deliver real-time economic insights used by agencies overseeing millions of workers
- Implemented WCAG-compliant 2D and 3D graphic assets to static and dynamic websites and apps

Kristina Ousley, MBA

Baltimore, MD | (410)908-1986 | kristinacousley@gmail.com

UX Director, American Journal of Evaluation(contract)

November 2020 - January 2024

- Increased subscriptions by 20% by designing and deploying the inaugural table of contents teaser
- Design mobile app experiences for 15,000+ university constituents, resulting increased engagement and submitted applications
- Orchestrated 20+ usability testing studies. Leveraged insights to increase conversions by 20%
- Led digital content production for social media platforms and ancillary websites that saw an increase of impressions by 50% and 30%, respectively

Auditor, United States Department of Agriculture (full-time)

September 2020 - August 2022

- Spearheaded the investigation of compliance for USDA 20+ subagencies annually
- Administered reports of noncompliance and actionable recommendations, resulting in a \$2M+ decrease in improper payments made
- Deployed the audit team intranet, which streamlined workflows, improved cross-collaboration, and reduced bottlenecks

Creative Director, Funky O Productions (contract)

January 2017 - May 2022

- Led the creative vision and brand identity, overseeing concept development, visual direction, and multi-platform content strategy
- Leveraged AI-driven prompts to deliver consistent visuals across social and digital platforms, resulting in 40% increase in audience engagement
- Achieved 30% decrease in lead time by implementing workflow automations in Wrike
